12-Month Workmanship Warranty

We stand behind our work. If a defect in our workmanship appears within 12 months of handover, we will put it right at no cost to you, subject to the terms below.

1. What we cover

This warranty is provided by GRAEM UK Ltd for workmanship on construction, refurbishment, void works, repairs and property maintenance we undertake under your agreed scope of works. It includes workmanship by subcontractors we engage to deliver that scope. A defect means work that has not been carried out with reasonable skill and care.

2. When cover starts

Cover lasts for 12 months from handover of the completed works. For a separately handed-over phase, cover starts on that phase's handover date. The date should be recorded in your completion or handover paperwork; contact us if you need it confirmed. This warranty does not shorten any longer protection agreed in writing.

3. How to report a problem

Email **info@graemuk.co.uk** as soon as reasonably practicable after discovering a problem. Include the property address, your contact details, quotation or invoice reference if available, a description of the issue, when it appeared and photographs where possible. Tell us if there is an immediate safety, security or water-damage concern. Landlords and managing agents may report on the customer's behalf.

4. How we respond

We will review your report promptly and aim to arrange an inspection within 10 working days, subject to access and the nature of the issue. Urgent issues will be prioritised and attendance agreed with you as soon as reasonably practicable. We will explain our findings and, where covered, carry out remedial work within a reasonable time, without charge and without significant inconvenience. We will keep you informed of any delays. Working days are Monday to Friday, excluding bank holidays.

Immediate danger: Do not wait for a warranty visit. Take safe steps to prevent further damage and contact the appropriate emergency service or qualified emergency contractor where necessary. Keep photographs and receipts.

Warranty terms

5. Access and repairs

Please give us a reasonable opportunity to inspect and put the issue right. Landlords and agents should arrange access with occupiers. If access is unavailable, we will agree another appointment. A covered defect reported during the warranty period remains eligible if the inspection or repair takes place later. Emergency action does not automatically invalidate your cover.

6. What is outside this workmanship warranty

This warranty does not cover fair wear and tear, or problems caused by misuse, accidental damage, neglect, inadequate maintenance, or alterations or repairs by others. It does not cover pre-existing defects outside our agreed scope, or normal movement and drying shrinkage that are not caused by defective workmanship. Client-supplied or specified products are excluded only to the extent the problem arises from the product or specification, rather than our installation or advice.

For occupied and rental properties, tenant or visitor damage, misuse-related blockages, and condensation or mould caused by occupancy or failure to follow reasonable ventilation advice are not covered. These exclusions do not apply where our defective work caused or contributed to the problem. Work elsewhere in the property does not automatically invalidate cover for our unaffected work.

7. Materials, appliances and specialist trades

Manufacturer warranties for products and appliances are additional to this workmanship warranty. We will pass on applicable warranty information and electrical, gas or other specialist certification and reasonably assist with claims. These arrangements do not remove our responsibilities for goods we supply, installation we undertake, or subcontracted work within our contract. Work you commission directly from an independent contractor falls under your separate agreement with them.

8. Remedial work and charges

Work repaired under this warranty is covered for the remainder of the original warranty period or three months from completion of that repair, whichever is longer. Covered inspection and remedial work are free. If an issue is outside cover, we will explain why and agree any charge before carrying out paid work. Any proposed failed-access charge must also be reasonable and agreed in advance.

9. Your contract and legal rights

This warranty is additional to your contractual and statutory rights and does not exclude or restrict them, including rights under the Consumer Rights Act 2015 where you are a consumer. Those rights may continue after this warranty expires. A payment dispute does not automatically remove warranty cover or statutory rights. For main-contractor packages, any longer defects period or additional protection agreed in the subcontract is preserved.
